WHEREAS, Koebler is the owner of U.S. Patent Nos. 9,412,994 and 9,954,207 ("Patent Assets");

WHEREAS, Koebler is the owner of certain licenses to the Patent Assets including a license of March 25, 2019 to Goodall Battery, LLC, an Indiana Domestic Limited Liability Company having an address at 10896 W. 300 South, Michigan City, Indiana, 46360, USA; and a license to Lithium Hub, LLC, a limited liability company having an address at 125 Tire Road, Norris, South Carolina, USA (collectively the "License Assets"); and

WHEREAS, Lithium is desirous of acquiring the entire right, title, and interest in, and to, all of Koebler's rights, titles, and interest to the Patent Assets and the License Assets.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, the Parties hereto (Koebler and Lithium) agree as follows:

1. Koebler hereby sells, assigns, transfers, conveys and delivers to Lithium, its successors and assigns, to have and to hold forever, without warranty of any kind, express or implied being made by this Assignment Agreement, all of Koebler's right, title, and interest in and to (i) the Patent Assets and any inventions set forth or embodied therein, including without limitation the right to make, to use, to import, to offer to sell, to sell, and to exclude others from making, using, importing, offering to sell, or selling the inventions of the Patent Assets, along with any provisional rights therein; (ii) any U.S. application or applications corresponding to or claiming priority to the Patent Assets; (iii) all divisions, reexaminations, reissues, substitutions, continuations, continuations in part, and extensions thereof; (iv) all rights of priority under the terms of any applicable conventions, treaties, statutes, or regulations, including without limitation the International Convention for Protection of Industrial Property for every member country, and the Patent Cooperation Treaty for every contracting state; (v) any and all legal or administrative actions and rights and remedies at law or in equity for past, present, and future infringements, misappropriations, or other violations of the Patent Assets, including the right to sue for, collect, and retain all damages, profits, proceeds therefrom, and all other remedies

associated therewith, and the right to negotiate and settle such actions; and (vi) any and all income, royalties, damages, and payments now or hereafter due or payable with respect to the Patent Assets, and all for Lithium's own use and enjoyment and for the use and enjoyment of Lithium's successors, assigns, or other legal representatives as fully and entirely as the same would have been held and enjoyed by Koehler if this Assignment Agreement had not been made. For avoidance of doubt, the omission of any right associated with the Patent Assets from this paragraph should not be understood as a retention of such rights by Koehler. Rather, Koehler intends to assign, transfer, convey, and deliver to Lithium all substantial rights in the Patent Assets by execution of this Assignment Agreement.

2. Koehler hereby sells, assigns, transfers, conveys and delivers to Lithium, its successors and assigns, to have and to have and to hold forever, without warranty of any kind, express or implied being made by this Assignment Agreement, all of Koehler's right, title, and interest in and to License Assets, including without limitation (i) all of the rights of the licensors of the License Assets, (ii) any and all legal or administrative actions and rights and remedies at law or in equity for past, present, and future violations of the License Assets including the right to sue for, collect, and retain all damages, profits, proceeds therefrom, and all other remedies associated therewith, and the right to negotiate and settle such actions; and (iii) any and all income, royalties, damages, and payments now or hereafter due or payable with respect to the License Assets, and all for Lithium's own use and enjoyment and for the use and enjoyment of Lithium's successors, assigns, or other legal representatives as fully and entirely as the same would have been held and enjoyed by Koehler if this Assignment Agreement had not been made. For avoidance of doubt, the omission of any right associated with the License Assets from this paragraph should not be understood as a retention of such rights by Koehler. Rather, Koehler intends to assign, transfer, convey, and deliver to Lithium all substantial rights in the License Assets by execution of this Assignment Agreement.
